

Report Name: Report on Project Progress.

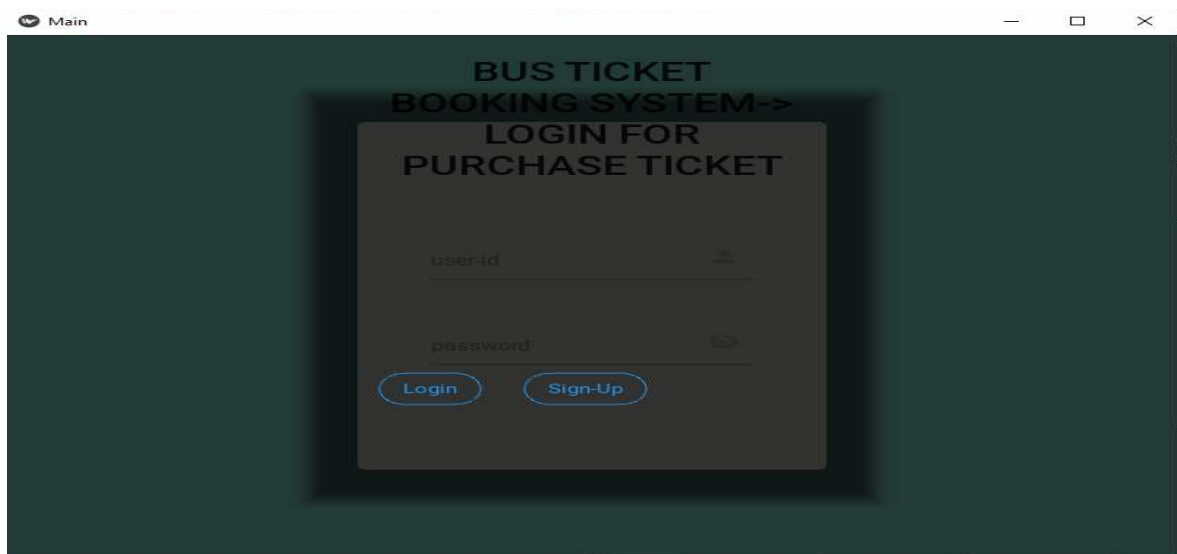

Project Progress Point:

We know for developing a project at first we need to design the project for this reason in this week we try to design our project some page.

1. We design login page for login into the system.
2. We design Sign Up page for registration new user.
3. And also design Search Ticket Page for searching Bus Ticket.

Login Activity:

The activity and user will not be able to access this page without verifying their identity. A user needs to login for purchase a bus ticket using his login credentials. If user is new then click Sign-Up button for registration.

Registration Form:

An online registration system eliminates the need of filling paper forms manually and sending them to a registration office. When using online registration systems, the participants can simply register at their convenience and submit their information immediately.

Our system registration form is very simple. The registration form contains attributes: User-id, Password, Confirm Password, Mobile number. You need to fill the attributes for registration.

The screenshot shows a web browser window titled "SignUp". The page has a dark green background. In the center, there is a dark gray rectangular box containing the title "BUS TICKET BOOKING SYSTEM -> SIGN UP" in white, bold, uppercase letters. Below the title, there are four input fields, each with a label and a corresponding icon to its right: "user-id" with a person icon, "password" with a lock icon, "confirm-password" with a lock icon, and "mobile number" with a telephone handset icon. At the bottom of the box, there is a blue button with the text "SIGN-UP" in white, uppercase letters.

Ticket search:

A bus ticket search is when we come to from to destination we search the bus ticket by Search Ticket option and journey date. And select the option we get find bus ticket as per our requirement very easily.

The screenshot shows a web browser window titled "SearchTicket". The page has a dark green background. In the center, there is a dark gray rectangular box containing the title "BUS TICKET BOOKING SYSTEM-> SEARCH TICKET" in white, bold, uppercase letters. Below the title, there are three input fields, each with a label and a corresponding icon to its right: "From Station" with a location pin icon, "To Station" with a location pin icon, and "Date" with a calendar icon. At the bottom of the box, there is a blue button with the text "Search Bus" in white, uppercase letters.
